New York Stock Market

New York, June 2.-Heavy pressure was directed against stocks to-day, and on an increased volume of business prices in many instances broke several points. Canadian Pacific, the only weak feature, fell 13 points. A loss within a week of 23 points. Union Pacific declined 44; Reading, 3; Amalgamated, 2½, and other standard issues 162 points. Over thirty stocks, of which Atchison, Canadian Pacific, New York Central, Northern Pacific, Pennsylvanoa and Union Pacific are the most prominent, brought to the lowest reached this year. The average price of active stocks fell to the lowest since 1809.

The action of the market was determined largely by the attitude of foreign holders of American securities. The unpleasant impression made abroad, particularly in France, by the St. Louis and San Francisco, led to a slump in Americans in London during the holiday period here, in which Canadian Pacific broke 3 points. When trading was resumed here, London came into the market as a heavy seller, not only of Canadian Pacific, but Union Pacific, Steel. Amaigamated and other stocks. Sales for London account, amounting to 39,000 or more shares, were instrumental in forcing off prices sharply at the outset.

The weakness was accenuated by bear selling here and by insistent pressure against Union Pacific, due to disappointment over the latest plans for dissolution of the Harriman system. Reading also was under pressure, but Southern Pacific was relatively firm. There was evidence of Ilquidation among the standard stocks, and the undertone was feverish and unsettled to the end. Other declines were shown in the forting hip report of European copper stocks, which are 2,300 tons lower than a year ago, Exports of copper for May showed weakness in spots, with the general movement downward. Total sales, par value, \$1,355,900.

New Orleans, La., June 2.—Cotton made a moderate advance to-day on the first condition report of the season from the government. The figures, 75-1 per cent of the normal, were well under average expectation and were no more or less than a surprise to all but those who held extremely bullish opinions. Market leaders and private estimates pointed to \$2\$ or \$3\$ as the average traders opinion of what the figures would be. Following the report the market rose 139 points. No great volume of business was done. The ring would have been more active but for the fact that to-morrow is a holiday in this market. On the opening the

The close was steady at a net advance of 6639 points. The weather map met advance of 6639 points. The weather map was dry and warm, and it caused some little selling, together with reports from the belt that the crop was growing fast under faverable conditions. The rise in temperatures removed the cause of complaint concerning crop conditions. Bears claimed that the crop has made great improvement since May 25, the date to which the condition figures were carried.

SCALP REBEL COMMANDER.

Mexican Federals Take Grewsome Vengeance on Enemy.

Laredo, Tex., June 2.—Mexican Federal soldlers, returning to Nuevo Laredo from Colombia, where they routed 300 rebels, brought the scalp of Captain Longoria, rebel commander, as a grewsome trophy of their victory, Longoria and twenty-one of his followers were killed. Six Federals also were killed. Six Federals also were killed, all of them, it is said, by bullets from Longoria's revolver.

Longoria, an Indian, organized his band and swore vengeance on the Federals when a relative named Pancho was hanged a month ago as a rebel spy.

After the government troops started on their return march to Nuevo Laredo another hand of rebels moved to Colombia from Hidelgo, and took possession of the town. Mexican Federals Take Grewsome Ven-

TERRAPIN ANSWER BELL.

Four Thousand Stick Up Their Heads at Dinner Call.

Bultimore, June 2.—The novel spectacle of 6,000 diamond-back terrapin sticking their heads out of the soft mud all at one time at the call of the dinner bell was witnessed by diovernor Goldsborough and his State road inspection party at Crisheld, the Eastern Shore town, built on oyster shells, and from sup other place in the country.

The pond is fed by tidewater, and is owned by a large packing firm. A watchman closely guards the valuable stock for diamond backs sell at \$20 a dozen. The watchman's wife greeted the Governor and party.

"If my husband was here he would feed the terrapin for you," she said, "but just the feet of the country of the terrapin for you," she said, "but just the feet of the country of the terrapin for you," she said, "but just the feet of the call of the feet of the country of the feet of the country.

ONE WOMAN LOVES MICE.

Has a Favorite Which Daily Comes to Dine From Her Hand.

Cincinnati, June 2.—11 is an old saying that all women are afraid of mice, but one has at last been found who is not afraid and even said she likes them.

She is Miss Ella Eversfield, an operator at the Grand Hotel, who takes her meals with her favorite mouse every day. The employes of the hotel have a private diningroom, and some time ago a mouse was discovered there. At the time Miss Eversfield had not learned to love mice and she probably screamed, but the mouse was game and stuck it out, and having learned the meal hours he insisted on putting in his appearance every day until finally the employes learned to consider him as one of their number, and now he eats his meals from the hand of Miss Eversfield.

He has learned to know each one of the cierks and operators by their first names, but favors Miss Eversfield, and will take his meals from no other hand but hers.

MYSTERY IN BRIDE'S SUICIDE.

Relatives and Friends All Sure Mrs. Runge Was Happy.
Philadelphia. Pa., June 2.—Just what caused Mrs. Florence May Runge, of 39 North Twenty-eighth Street, Camden, to end her life by inhaling illuminating gas on Saturday remained a mystery yesterday, although Coroner Saunders is of the bellef that worry over her nervous condition was responsible. The husband is prostrated, and declined to discuss the matter.
Neighbors, relatives and friends appear to agree that the couple, married only a short time, were perfectly happy. Before Mrs. Runge became the bride of Halford Runge she was Miss Florence Alexander, of West Collingswood.

IN STOCK MARKET

Situation Is Strained, and Outlook Is Far From Encouraging.

BY BROADAN WALL.

New York, June 2.—On a volume of business that exceeded 560,000 shares, to-day's stock market developed extreme weakness. During the time our market was closed for the holidays, the financial situation in Berlin became demoralized on the announcement that the German government would bring out some \$55,000,000 treasury bills. Violent unloading of speculative interests followed and, as presaged in these dispatches last night, the selling centred largely in Canadian Pacific. There was an initial decilne of \$ points, which was followed by an extreme drop of 13 points from Thursday's close. This was accompanied by selling orders in Atchison, Baltimore and Ohio and Union Pacific.

The selling for foreign account was the feature of the day and included some 50,000 shares in all. The situation was further strained by liquidation from Montreal and other Canadian cities. There was very little local support in the market, and prices for the inactive issues fell sharply on small offerings. There was pressure in the

feature of the day and included some 50,000 shares in all. The situation was further strained by liquidation from Montreal and other Canadian cities. There was very little local support in the market, and prices for the interest of the surface of the little pond appeared instantly 1,000 little heads, making the pond look very much like a bed of asparagus. They were hungry, anxious for dinner, but for once they were fooled, as they had to wait until the watchman came.

"APHASIA BINDE" ALONE.

Maybe "Twas Catching, for Husband Has Disappeared.

Boston, June 2.—Mrs. Frank Frost, of 28 East Springfield Street, who was formerly known as the "aphasia bride," has asked the police to look for her husband. When Miss Mearson came to Boston for ker wedding she completely lost her memory wille shopping. She was sent to the Charder of Street Home and physicians treated her for seven hours before her mind cleared and she remembered she had come here to marry Frost.

Mis and the market showed a tendency to become firm and dull as foreign selling fell off. It is feared, however, that further liquidation from Montreal and our strength in the face of heavy transactive issues strength in the face of heavy transactions. This stock soid ex-dividend and declined but It's per cent. Reading was heavily to store and the like and this, with Lehigh Valley, lost 2 points, Colorado Fuel also was active and weak. Among the low-priced shares, Fried dopped below 26; M. K. T. fell to 19½, and Rock Island to 16.

There were a number of declines from 2 to 4 points in such stocks as Virginia-Carolina preferred. Sears floobuck, Third Avenue, United States Rubber and Beet Sugar.

While sum market developed little support, there was not much local pressure on stocks, and the market showed a tendency to become firm and dull as foreign selling fell off. It is feared, however, that further liquidation from a broken compeled to refinance these of the first and the sum of the

is motes no matter how high the interest demanded.

Keen disappointment is felt that the new Union-Southern Pacific plan threatens to be a burden rather than any relief to a congested investment market. There was heavy selling of Union Pacific by the same interests who a week ago were speaking hopefully for the future of this stock. Southern Pacific, however, maintained a firm tone, showing but a slight decline after selling ex-dividend at the opening.

Pennsylvania proved a disappoinment by dropping to 1978; on the published earnings for the month of April. On the lines west of Pittsburgh there was a decrease net of \$7.2,574. On the lines east, the met fell off \$250.870, and the maintenance expenses increased \$1,075,000. New York Central on the other hand reported a net gain of \$740.610.

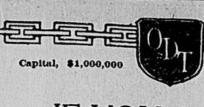

The government report on the condition of cotton on May 25 was disappointing, in that

Germany took gold in London. Markets abroad were a good deal depressed by the load of undigested securities, particularly in dvidence at London, where measures will probably be taken to prevent new issues being offered until the congestion is relieved. A continuation of foreign selling is expected, and our market is in no humor to take back securities except at a further recession in prices.

Canadian Pacific has scored a very sharp decline, yet the price is still high compared with our own standard issues, and the shares will probably be offered by the foreigners on any exhibition of strength in our market. The firm undertone noted last week faded away during the holidays, and the immediate outlook for prices is not encouraging.
